

# RESIDENCY @<sup>THE</sup> CLINIC

Residency @ The Clinic is a nine-month program designed for health care innovators seeking to validate and accelerate their health innovations, grow their businesses and expand their professional networks. Throughout the program, residents participate in the following activities:

1

**One-on-One Coaching:** Innovators work closely with coaches to define and execute on key project objectives for each sprint.

2

**Sprint Pitch Sessions:** Throughout the year, residents pitch their innovations and upcoming objectives for the next 3 months, covering a range of goals, including prototyping, business modeling, regulatory strategy, and product testing.

3

**Monthly Residency Rounds:** Exclusive peer-to-peer and expert facilitated round table discussions that tackle specific health entrepreneurship challenges including business model development, regulatory strategy, network building, reimbursement, and funding options.

4

**Demo Day:** Residents conclude the program showcasing their prototypes and next steps. Innovations are presented to The Clinic community and members of the Hamilton ecosystem.

## RESIDENCY EXPERIENCE

Residents have use of The Clinic's dedicated Collision Room for the duration of the program, offering a collaborative workspace. Residents also have access to an exclusive online portal with over 750 educational resources to support their journey.
